

The 3rd International Symposium

The Evolution of Pauline Sasaki's Work
Advanced Quantum Shiatsu

The Human Potencial - Touching Oneness in the Body

ESI Berlin &
Lichtraum Berlin
June 21 st - 25 st 2023

Brigitte Ladwig (D)
Nicola Ley (UK)
Gabriella Poli (I)

Working with the Divine Feminine leads to

**connectedness
open heartedness
empowerment
light in matter
unifying in our touch
and our encounters
with each other.**

**Divine Feminine will be the theme
throughout the whole Symposium.**

Who we are

Pauline Sasaki's gift to the world - her Advanced Quantum Shiatsu and Virtual Codes Somatics - is gradually evolving.

It is about remembering who we are as light beings in a physical body, using more and more our human potential and touching the Oneness in the body.

We would love to share and celebrate this with you. This also will come with a variety of practical techniques to integrate her work into daily life.

The Divine Feminine was especially dear to Pauline and in the light of the changing world we live in one of her greatest gifts.

Lerning Agenda

- The days will be fluid with workshops, meditations and inner journeys, exchanges, talks, questions and answers, morning exercises and evening events.
- Each day will also have a flavour of its own. And every day one of us will present a workshop with her new developments of Pauline's extraordinary work.
- This Symposium is open to everyone who is interested in extending their own shiatsu, energy or healing work.
- There is no requirement to know the shiatsu meridians. You only need a willingness to explore the multidimensional realms and how the Oneness can be experienced as a living and felt thing within us and with one another.
- Every gender and creed is welcome.

- **This course is open to all people interested in expanding their own shiatsu, energy or healing work.**
- **It is not necessary to know the shiatsu meridians, just a willingness to explore the multidimensional realms with us.**
- **The program evolves during the symposium, so the strong recommendation to attend all days, especially for beginners.**
- **Translation in English, Italian and German.**
- **Please indicate your level of Advanced Quantum Shiatsu knowledge when registering.**

PROGRAM

1st day: Introduction - Start 3 pm

We will start together taking in the information and atmosphere of Pauline's DVD: The Human Potential. You will then find out and feel what the work is for you by practically doing it with one another.

In the evening we will introduce where this work has taken the three of us and share our journeys.

2nd day: The Energetic Anatomy

We will look at how to use the light bodies, chakras and star chakras in the light of the Divine Feminine.

We will use these techniques as a bridge between the physical body and the Oneness.

3rd day: Multidimensional Realm

We will be exploring how to get in touch with our multidimensionality to connect with the Higher Self and the Divine Source. We can encourage bringing the multi realm to our clients.

We will be using sacred geometry, sacred images and archetypes.

4th day: Connecting to the Oneness

This day will encourage everyone to use their own techniques to connect to the Oneness. We can use mindset, alignment and different pathways to feel the Oneness and anchor it in our body.

This could lead onto the Ascension codes, the Grid, the Whole Presence and DNA activation which are all ways to step into the light.

5th day: Finalizing - End 1 pm

This day will be about deepening, integrating and reviewing what we have experienced, practically and theoretically to help everyone's understanding.

The Teachers

Nicola Ley "I learnt to hand my work over to the Divine."

Gabriella Poli "Pauline took my hand and led me into a journey towards Oneness and the Divine Source."

Brigitte Ladwig "I am learning to trust the wisdom of not knowing."

Together with Eva-Maria Schulte we presented the 1st and 2nd International Symposium 2014 in Switzerland and 2016 in Italy.

As experienced Shiatsu teachers we already had studied for long time with Pauline Sasaki before we started to work with her in a private study group from 2004.

For each of us it was a life changing and enriching experience. Pauline has offered us a whole new philosophy and a new vision of the Human Being and of his potentials.

Her new techniques to connect to our light and to anchor the high vibrations into the physical are so precious.

We are practicing, teaching and developing Pauline's great gifts in our individual ways.
